

Understand your skin...

Your skin is the largest organ of the body, and is the most exposed to the environment.

Hydrating your skin externally with creams and moisturisers will only

Temporarily Hydrate

the outer layers of your skin and not continuously, naturally keep it moist.

The Key is to Stimulate Skin Metabolism,

and draw moisture from within.

By using **Bi-polar RF technology**, and focusing **controlled soothing heat** into the skin's core, the natural response is for

the skin to **Increase Blood Flow** to these areas.

This not only

Increases the Moisture content of your skin **Naturally**,

but also helps to

speed up your skin's Metabolism, drawing away **Harmful Toxins**

that hinder your **Skin's Health and Beauty**.

Look and Feel
Energised and Alive!

Collagen Rejuvenation
Controlled **Bi-Polar RF energy** is focused into deeper layers of your skin, to break down aged Collagen strands, resulting in tighter, younger looking skin.

Cellulite Lymphatic Drain
Soothing Ultra Sonic pulses target fat cells causing them to vibrate away from the fibrous connective tissue between your skin and muscles. The **Bi-Polar RF energy** is then used to further liquefy the fat. The Lymphatic system can then easily remove these cells, allowing your skin to look firmer, naturally.
